Transition and Environmental Management

DOE, RFO

Attn: B. K. Thatcher

RECENT CONSTRUCTION ACTIVITIES AFFECTING OPERABLE UNITS 8 AND 13 (11739) -
NMH-567-93

The above referenced letter describes construction activities by EG&G Rocky Flats, Inc. Plant Services involving improper ditch clean out where soil was spread beyond the confines of the ditch south of Central Avenue between 4th and 7th Streets. In the letter the Department of Energy, Rocky Flats Office (DOE, RFO) requested from EG&G Rocky Flats four items summarizing the activities involved during the clean out of the ditch. The summary was requested to be delivered to DOE, RFO on October 25, 1993. The group tasked for this action item, EG&G Rocky Flats Environmental Restoration Management (ERM), did not receive this item until October 27, 1993, and thus ERM is requesting an extension to November 11, 1993.

EG&G Rocky Flats ERM in conjunction with EG&G Rocky Flats Plant Services will provide the requested information to DOE, RFO on November 11, 1993. Overall Operable Units (OUs) 8 and 13 were involved with the ditch clean out and ERM's Project Managers will coordinate with Plant Services for the response to DOE, RFO.

If you have any questions or require additional information regarding this matter, please contact me, or B. D. Peterman of Remediation Project Management at extension 8659.
